

Ceiling Clip Installation Requirement Notice

Structural Support Requirement: Applies to all Civic 10mm frameless shower screens requiring a ceiling support clip.

Civic Shower Screens and Wardrobes has been contracted to install a 10mm frameless shower screen that requires a ceiling support clip. This notice outlines an important installation requirement to ensure the shower screen can be installed safely and correctly.

To securely install the ceiling support clip, suitable structural support (nogging or equivalent framing) must be provided within the ceiling at the required fixing location before Civic attends for installation.

Important Information

Please note:

- The builder or owner is responsible for ensuring suitable structural support is provided at the required clip location.
- Civic cannot fix a ceiling support clip directly to plasterboard or other non-structural ceiling linings.
- If suitable structural support is not available at the time of installation, Civic may be unable to complete the installation.
- Any delays, return visits or additional labour required due to the absence of suitable structural support may incur additional charges.

Installation Requirement Acknowledgment

By signing below, I confirm that:

- I have read and understood this Installation Requirement Notice.
- I understand that suitable structural support (nogging or equivalent framing) must be installed before Civic attends for installation.
- I understand that installation may be delayed if suitable structural support has not been provided.
- I accept that any delays or additional costs resulting from the absence of suitable structural support are the responsibility of the builder or owner.
