NOTES

- MirrorMax is produced using an advanced magnetron sputter coating process, creating a durable reflective finish with enhanced clarity and moisture resistance for long-term performance.
- Edgework: Polished edges included unless otherwise specified.
- Cutouts extra
- Slight colour variation between toughened and untoughened splashback glass.
- Silver not available in toughened.
- A Special Order refers to a non-standard product that is available by request. These items typically require a minimum order quantity, are subject to availability, and may incur additional costs and extended lead or processing times.
- See individual product guide on our website for specific information. civicscreens.com.au
